Summary

Full Stack .NET Developer with hands-on experience in web, desktop, and industrial software development using C#, ASP.NET Core, React.js, SQL Server, and Electron.js. Currently working as an R&D Software Intern at ESAB India, contributing to CNC cutting and automation systems. Skilled in REST APIs, CRUD operations, MVC architecture, debugging, and performance optimization.

Education

DMI College of Engineering

B.E. Computer Science Engineering (CGPA: 7.31)

Chennai, India

2021 – 2025

Technical Skills

- **Frontend:** HTML5, CSS3, Bootstrap, JavaScript, React.js, AG Grid
- **Backend:** C#, ASP.NET Core, .NET Framework, REST APIs, MVC
- **Database:** SQL Server, MySQL, Entity Framework, LINQ
- **Desktop & Visualization:** Electron.js, DXF Viewer
- **Tools:** Git, GitHub, Postman, VS Code, Visual Studio, Figma
- **Concepts:** CRUD Operations, API Integration, Authentication, Debugging, SDLC

Experience

ESAB India Limited

R&D Software Intern

Chennai, India

Jan 2026 – Present

- Developed and maintained software modules for CNC cutting systems using C# and .NET
- Worked on industrial automation workflows and machine-related software features
- Performed debugging, issue fixing, testing, and performance optimization
- Contributed to MVC-based architecture and REST API integration
- Collaborated with development and R&D teams for feature enhancements
- Prepared technical documentation and workflow analysis

BCC Martech

Web Developer Intern

Chennai, India

Jul 2024 – Aug 2024

- Built responsive web applications using HTML, CSS, Bootstrap, and JavaScript
- Customized WordPress solutions based on client requirements

Projects

Dynamic AG Grid Management System

- Developed dynamic data management application using React.js, AG Grid, ASP.NET Core, and SQL Server
- Implemented advanced CRUD operations, filtering, sorting, and pagination

- Integrated DXF Viewer for layout and part visualization
- Optimized AG Grid rendering performance for handling large datasets
- Built reusable UI components and developed REST APIs using Entity Framework

Employee Management System (Full Stack CRUD)

- Developed full-stack CRUD application using ASP.NET Core, React.js, and SQL Server
- Built RESTful APIs for employee data management and operations
- Implemented Entity Framework for database integration and LINQ-based queries
- Designed responsive UI with form validation and API integration

Image Resize Desktop Application

- Built cross-platform desktop application using Electron.js and React.js
- Implemented image upload, preview, and optimization features
- Developed responsive UI for smooth desktop application experience

Achievements

- Secured 2nd Place in Technical Quiz at Kings College of Engineering
- Won 3rd Place in Paper Presentation at DMI College of Engineering

Certifications

- Python Certification – MSME Development Institute
- UI/UX Workshop – Anipix Animation Academy
- AR/VR Workshop – Vrelab
